

Website Name: My Student Finance

Description:

My Student Finance is a website that is going to help students in college understand how to save and spend their money wisely. The main objective of this website is to provide easy budgeting advice for student expenses, such as transportation, housing, food etc. It's hard for students to know what's best for them and how to manage their money so this will help them figure out what they need versus what they want. This website can also help students figure out how to save money. I plan on adding something like a budget calculator that they can keep on their devices to help them budget out their money. This website will essentially help students manage their money smarter and in a very easy way.

Page Names:

1. Home
2. Basics of Budgeting
3. Food
4. Budget Calculation
5. Tips on Saving
